Physics 205 – Homework 3 (due Tuesday, Feb.7) – Spring 2012

There are a lot of questions here, based on readings from Hewitt, but they should be easy.

1. Read Sect. 15.1, understand figures 15.8-15.11 of Sect.15.2 (you shouldn’t have to read this section), and Sect.15.4. Don’t worry about any equations.

Answer Review Questions 1,2,4,5,10,15,17.

Answer Review Questions 1,2,6,9,11,14,15.

Extra Credit: I said something in class on Thursday that disagreed with Fig.16.4, which is correct. What did I say?
