SFB Fellowships

The Collaborative Research Centre (SFB) 676 „Particles, Strings, and the Early Universe-The Structure of Matter and Space-Time“ is offering a number of research fellowships for researchers at any stage of their career. Successful candidates will be expected to participate in the scientific activities of the SFB and to collaborate with its members.

The fellowships will be awarded on a competitive basis for a period of 2-6 months each. Applications for shorter or longer periods may be considered in exceptional cases.

The rates of support for the duration of the fellowship will be set at the following levels:

- Post-Docs € 2.200 per month
- Associate Professors € 2.300 per month
- Full Professors € 3.000 per month

Applications (including CV, list of publications, and an outline of proposed research) should be sent to the spokesperson of the SFB 676, Prof. Dr. Jan Louis by either email, fax or mail. (email: sfb676(AT)desy.de; fax: +49-40-8998 2267; Prof. Dr. Jan Louis, II. Institut für Theoretische Physik, Universität Hamburg, Luruper Chaussee 149, D-22761 Hamburg, Germany)

Younger applicants are encouraged to arrange for two letters of recommendation to either accompany the application or to be sent separately to the above address.

An important aspect of the scheme is to encourage women to do research in science. Qualified women candidates are therefore particularly invited to apply.

There is no explicit deadline, but for the next round of fellowships applications should preferably arrive before March 31st, 2011.

Information about the SFB 676 and its activities can be found on the web-page: http://wwwiexp.desy.de/sfb676/.
