Honor Statement
By signing below I am confirming that all of the work contained herein is my own. I understand that I was permitted and even encouraged to discuss the solutions to these homework problems with my classmates and to make use of any online materials made available to me. However, I at most used those discussions and materials to guide my thinking in writing up my own solutions. At no point did I look at or copy the solutions, in whole or in part, created by anyone else, nor did I allow anyone else to look at or copy my solutions. I understand that not adhering to this policy is considered cheating and I will be dealt with accordingly.

“An Aggie does not lie, cheat, or steal, or tolerate those who do.”
